

YOU'RE IN GOOD COMPANY
A SINGLE SOURCE TECHNOLOGY PROVIDER

INTELLIGENT & MONEY-SAVING LIGHTING SOLUTIONS

While lighting typically accounts for about 1/3 of a commercial building's energy use, it's estimated that as much as 75% of the energy it consumes is wasted.

ICAS® INTRODUCES A SINGLE, COST-EFFECTIVE LIGHTING CONTROL NETWORK FEATURING AN INTEGRATED BUILDING INTELLIGENCE PLATFORM...

Our innovative approach combines power, control, and communication technologies over a single, low-voltage network architecture, which automates lighting and enables building intelligence.

This cutting edge system integrates a cohesive network of high-density sensors that collect, monitor, and report on enormous amounts of data as they pertain to motion, occupancy density, light levels, and ambient temperature.

The entire solution is administered through a centralized and user-friendly web-based dashboard accessible through desktops, tablets, smartphones, and VOIP telephone systems.

In addition to improving how commercial buildings are lit, heated, occupied, and managed, our revolutionary and patent-pending solution enables the creation of an internal environment conducive to improved **HEALTH – SAFETY – EFFICIENCY – PRODUCTIVITY**

- Reduction of Lighting Energy Costs by an Average of 75%
- Holistic View of the Building Environment
- A Flexible, Scalable, Open Platform
- Reduced Installation, Commissioning and Maintenance Costs
- Intuitive Web-based Controls and Energy Reports
- Real-time Energy Management
- Minimization of Your Energy Footprint
- Monitoring and Enhancement of Workplace Environment
- Qualification to Earn Valuable LEED Certification Points

ICAS® is nationally approved and fully certified to design, build, and maintain this incredible, money-saving technology. In addition, ICAS® has earned the prestigious distinction as a select, IBEW Local 3 certified Installer New York City and the surrounding areas.
