

CREATE, COMMUNICATE, COLLABORATE

With the pace of business moving faster than ever, maximizing productivity and efficiency has never been more mission critical when it comes to your bottom line.

From two names you know and trust, Microsoft® and ICAS®, comes a fully hosted cloud-based solution that is extraordinarily robust, yet so simple to manage. And, because it's designed to enhance your workflow, software is automatically upgraded to its latest version, eliminating the need to manage outdated servers and programs.

With seamless integration, connectivity and synchronization between applications, this intelligent and comprehensive solution keeps you connected in real time via your desktop, tablet or mobile device - all in a scalable, flexible bundle with one low monthly fee, no long-term contracts.

WHY OFFICE 365?

- Instantly and securely create and edit Microsoft® Word, Excel, PowerPoint and OneNote files from virtually anywhere
- Easily scale up or down monthly, based on current number of employees: from one user to tens of thousands, pay only for what you use, regardless of head count
- Synchronize company e-mail across a multitude of devices, without the time or expense of server maintenance, back-ups or expensive, continuous upgrades
- Allow external users to securely access and edit documents
- Documents edited offline will synchronize automatically when Internet connectivity becomes available
- Collaborate "face-to-face" with colleagues from the palm of your hand
- Turn downtime into uptime while on the go
- 24/7 Multilingual live support

As a select, trusted Microsoft® partner, ICAS® will seamlessly backup, migrate and synchronize your data and upgrade your current system- all at no additional cost- while ensuring the security and integrity of your data.

Contact ICAS® today to learn more about how our services can help take your organization to the next level.
