

COMPREHENSIVE PROJECT MANAGEMENT SERVICES

Whether your projects involve voice, data, security, video, or wireless technology, ICAS® Project Management Services has the knowledge, skill and expertise to efficiently and effectively develop and manage even the most complex network infrastructures. Our vast portfolio includes both public and private sector work with an emphasis on security, stability and redundancy.

WHY ICAS PROJECT MANAGEMENT?

- Experts at large-scale, regional and national rollouts
- Resources to effectively plan and execute across an expansive spectrum
- Ability to simultaneously coordinate, track and communicate within multi-layered projects involving multiple trades and sub-contracted vendors

WANT TO KNOW MORE?

- You can rest easy with your ICAS® team at the helm. By allowing us to do what we do best, you're able to focus on your core competencies and revenue generation
- Detailed reporting will ensure that all assets are accounted for and all tasks are being properly addressed
- Compliance with complex and ever-changing local, state and federal regulations are managed on your behalf by our team of experts
- Budgeting based not only on good intentions, but also on experience: Budgeting that works
- Seamless execution from concept to delivery

At ICAS®, we take great pride in our projects, and, perhaps even more importantly, our valued business relationships.

As a family-centric organization with over three decades of successful implementations to our credit, it's the relationships with our loyal clients that we continue to cherish. We look forward to learning how we can help you.
