

## TECHNOLOGY RELOCATION SERVICES

Let's face it; relocating your business is a potentially stressful and often arduous undertaking. When it comes to moving the nerve center of your operation, even the seemingly simplest moves packs the potential to be disastrous in terms of down time, data loss, equipment damage and business interruption.

With over 30 years of experience in all aspects of technology relocation—from full desk side technology to complex server farms and data centers—we understand what it takes to get the job done properly.

At ICAS®, it is our firm belief that, with proper planning, expertise, and execution, every move can be seamless and stress-free. In fact, we strive to exceed our clients' expectations with each and every move we make—and we've made thousands! Whether it's a temporary relocation for 100 employees, or a cross-country move for over 10,000 employees, our process is proven and consistent.

### A FEW THINGS YOU CAN EXPECT BY WORKING WITH ICAS®:

- Highly skilled and knowledgeable staff that boasts countless IT certifications, each of which helps to ensure a seamless process while reducing unforeseen issues
- Assigned project manager provides a single point of contact for all your questions and concerns
- ICAS® is bonded, insured, and perhaps more importantly, trusted, to manage all of your technology relocation needs
- Peace of mind that can only come from a partner with years of experience and thousands of successful technology relocations

Whatever your particular needs may be, we pride ourselves on staying ahead of every detail and treating each client as if they're our only client.
